

Whisper Walls

LEED CERTIFICATION

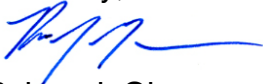

July 2012

This letter is to certify the following LEED credentials for Whisper Walls system components:

- The Whisper Walls *Recycled* Polymer stretching system is manufactured from 100% post industrial¹ recycled materials.

Please contact me should you require additional information.

Sincerely,

Robert J. Gleason
Business Development Manager

¹ Post-industrial content is material diverted from the waste stream during a manufacturing process that has never reached the end user. (Source: ISO 14021)
